- Python, C++, C#, Swift
- TypeScript, JavaScript
- Angular, React, Next.js
- React Native (Expo)
- AWS, Terraform, Docker
- FastAPI, Unity, Git

Projects

- Safety Screamer
- Pixel Frame
- CupidGPT

ETHAN KNOTTS

Chief Technology Officer · Flash AI

Experience

Flash AI · Columbus, OH

Chief Technology Officer

Dec 2025 – Present

- Lead engineering strategy and architecture for an AI-powered investigations platform used by law enforcement agencies across Ohio.
- Own product direction across full-stack web, cloud infrastructure, and applied ML; coordinate roadmap, hiring, and customer rollouts.

AI OWL · Columbus, OH

Lead Software Engineer

May 2025 – Dec 2025

- Built Primalytics for the Columbus Zoo: a multimodal LLM platform that analyzes live video footage and streams structured AI insights into spreadsheets in real time.
- Engineered React frontend + FastAPI backend across AWS microservices — ECS, Lambda, DynamoDB, RDS, and Cognito — provisioned entirely with Terraform.
- Led Angular architecture and component systems; drove REST API integration and code review process end-to-end.

Software Developer, Intern

May 2024 – May 2025

- Built Jumper, an AI-literacy educational game: programmed core mechanics in C# in Unity and shipped interactive digital environments.
- Ran code reviews on GitHub, enforcing best practices and optimizing performance.

Warren High School

May 2023 – Aug 2023

IT / Cybersecurity Intern · Barlow Vincent, OH

- Used PowerShell to troubleshoot and resolve network errors across school infrastructure.
- Installed, configured, and inventoried 150 new computers; supported staff on hardware and software issues.

Education

Ohio University

Aug 2024 – May 2027 (Expected)

B.S. in Computer Science · Athens, OH

Leadership & Recognition

VP, Collegiate Entrepreneurship Organization (CEO)

2026 – 2027
